

COVID-19 Statement

The Red River Exhibition Association is closely monitoring the COVID-19 situation, and will continue to follow the advice of the Public Health Agency of Canada and Manitoba Health as they monitor information, assess risk and provide recommendations based on the best available evidence as the situation evolves. We have staff in place who have developed plans to maintain operations and ensure the safety of staff and visitors.

Maintaining healthy standards and practices inside and outside of our buildings, facilities and premises at Red River Exhibition Park is imperative. This includes disinfection of hard surfaces (door handles, tables, ATM machines) and more frequent cleaning before, during and after events. We are investing in extensive disinfecting equipment and additional hand sanitizers will be available for public use. All washrooms are equipped with soap, water as well as functioning air dryers and paper towel dispensers, to encourage frequent handwashing.

We would encourage all visitors to the Park to ensure they are healthy before they arrive. Should they not be feeling well, we would ask that visitors, exhibitors, customers, staff and patrons stay home and follow the instructions provided by health officials. Once they are well, we are pleased to welcome them back to Red River Exhibition Park.

For now, we will be operating all business units and public shows as per normal. In the event that public health agencies instruct otherwise, our operations will change and the public as well as our clients will be notified.
